

President's Message:

So, another year has gone by, and out next meeting is our AGM, I hope you can all attend for our new Committee.

Following our AGM will be our morning tea, *we have decided to also celebrate St. Patrick's Day (later in the month), so please wear something **green**, and bring an Irish joke share.*

I know the Getaway Group has just had a visit to Nuriootpa, hope was fun as always. Looking forward to the report.

Our Lunch at the Crown was well attended, Sorry I forgot to take a photo, I enjoyed my meal and the good company, Our next lunch is somewhere new, at the Flagstaff Hill Golf Club on the 17th March.

Our fun in friendship continues.

Marg

NEXT MEETING: Tuesday 9.30 am 3 March 2026

No Speaker: AGM to follow General Meeting
Church of Christ, Hub Drive, Aberfoyle Park.

If you are unable to attend our monthly meeting please phone/email the secretary as an apology

FSPEAKER: Kelly Kovcek (Audliologist)

Kelly Kovcek from Hearing Sense

With 26 years' experience in the hearing industry, Kelly first explained how our hearing works and which sensory organs are involved in hearing, mental health, balance and even how poor hearing affects conditions like dementia. Our brain's neuroplasticity is vital for a good quality of life.

Kelly then explained about the latest technology in hearing aids and even which types are best for each situation.

Some are satellite linked with fall alerts and others are rechargeable with TV adapters. There are even those you leave in 24 hours a day and are replaced every few months.

Janice thanked Kelly for her informative and thought-provoking information with a small gift

CHILDHOOD INJURIES

Fell off my bike
Fell out of a Tree
Twisted my Ankle

ADULT INJURIES

Slept wrong
Sat for tooooooo long
Sneezed tooooooo hard

My laptop caught pneumonia, apparently,
because I left Windows open.

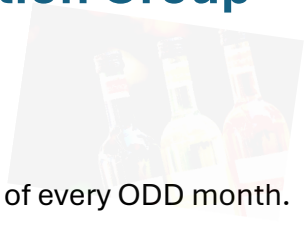

The main function of your big toe. Is to make
sure all the furniture in the home is in the right
place.
